 EMC Fittings Manufacturer From China

Product Catalog: Honeycomb Vents  
 Material: Tin Plated Steel  
 Product Serial: HM0440020H010000

HM Electronic Equipment Co., LTD offers Honeycomb Vent EMI/EMC shielding ventilation panels. Available in a wide choice of materials, platings, and mounting configurations. We offer the EMC/EMI engineer new versatility to meet EMI EMC, environmental, and mechanical requirements of system specifications.

## HM Honeycomb Vent Advantages:

- \* Widely choice of core materials and finishes to meet broad range of shielding effectiveness requirements
- \* Widely choice of frame materials
- \* Thickness is available from 5mm to 120mm
- \* Cell diameter is available from 2.5mm/3.2mm/4.0mm/5.0mm/8.0mm  
\*\* Other size for the cell diameter is available too for special order
- \* Full test of honeycomb vent to MIL-STD-285 to aid in the early stages of equipment panel design
- \* High performance with the reasonable price
- \* The choice of many famous company around the world
- \* Customize base on customer requirement

## Technical Parameter

Thickness: 25mm Cell Diameter: 3.2mm  
 Material: Tin plated steel  
 Cell Foil Material: Tin plated Steel Roll  
 Cell Foil Thickness: 0.15mm
